

## TipTop Technical Data Sheet

### Composition

#### COMPOUND LIQUID INORGANIC MACRONUTRIENT FERTILISER

NPK (Mg) 20-20-20 (1.5) with boron (B), copper (Cu), iron (Fe), manganese (Mn), molybdenum (Mo) and zinc (Zn)

Content declared w/v:

Total Nitrogen (N): 20%; Nitric Nitrogen (N): 2.1%; Ammoniacal Nitrogen (N): 4.8%  
Ureic Nitrogen (N): 13.1%; Phosphorus pentoxide (P<sub>2</sub>O<sub>5</sub>) water soluble 20%  
Potassium oxide (K<sub>2</sub>O) soluble in water: 20%; Magnesium oxide (MgO) water soluble: 1.5%  
Boron (B) water soluble: 0.032%; Copper (Cu) chelated by EDTA soluble in water 0.075%  
Iron (Fe) chelated by EDTA soluble in water 0.242%; Manganese (Mn) soluble in water 0.075%  
Molybdenum (Mo) soluble in water 0.001%; Zinc (Zn) chelated by EDTA water soluble 0.075%

### Formats

Packaging 1, 5 and 10 litres

### Features

**TipTop** is a 20:20:20 high concentration suspension fertiliser with extra elements and microelements for foliar applications.

**TipTop** can be used on a range of indoor and outdoor crops with a requirement for a full complement of nutrients.

**TipTop** has been specially formulated to ensure it is fully stable in the bottle and fully water soluble, ensuring consistent rates of application and dosing.

The **TipTop** formulation has been designed to give an optimal spray pattern, ensuring thorough coverage of the plant giving a more even spread of nutrients.

## Advantages

**TipTop** is a unique liquid formulation that is stable in the container, ensuring rapid mixing and consistent delivery of nutrients. Designed to be used in all crops as a single use product.

The mixture of macro and microelements guarantees that **TipTop** can be used alone as a foliar fertiliser. Developed for rapid absorption of all nutrients by the plant quickly and effectively it can also correct any deficiencies with minimal losses.

**TipTop** formulation is designed to provide an optimal application, ensuring safe coverage of the plant whilst providing a complete range of nutrients.

## Application and Dosage

**TipTop** can be applied as a foliar spray. Use a medium droplet spectrum.

**TipTop** can be used at a dose of 2 to 5 litres / ha, depending on the nutritional requirements. Use in a minimum of 200 litres of water / ha.

For detailed information the use of **TipTop** in a particular crop, please visit our website [www.ecoculturebs.com](http://www.ecoculturebs.com)
